**This is not theory...it works!**

**"Not Too Shabby!"**

Hi TC and Vickie,

Just Wanted to Thank You guys for helping me get the courage and knowledge to get my first deal done.

Oh and did I mention only \$20 down for a 2 year lease with option to buy?

Well the second person that came to look at the property, I was able to get them financed to purchase the property right now!!!

So 30 days later we just closed on Jan 11, 2007

Sooooo here's the best part... I had a \$20,000 spread on that deal after all closing costs, conveyance fees to the State and County and walked out of my attorneys office with a check for \$16,127.25 (Not bad for my first deal)

Thank you TC and Vickie for your help!

## "\$12,000 profit in just a 6 week period!"

"I've got 12,000 reasons to be thankful for T.C. Bradley's guidance in acquiring my first real estate property.

**"That's right. I made a \$12,000 profit in just a 6 week period.** With his help, I was able to purchase a home below market value and then turn around and sell it with the resulting profit mentioned above. Is it Easy? With T.C. Bradley riding shotgun with you every step of the way, it's easier than you might think."

Dear Friend,

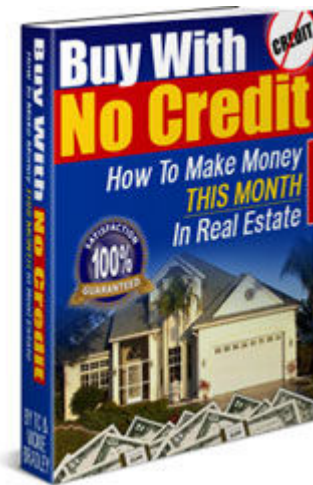

Suppose that as the result of reading this letter, you will **control your first home** – for your family, or as your first investment property – in the next thirty days, regardless of your past credit history.

Suppose you could have this home, *without a credit check...* and **cash out** on the deal with tens of thousands of dollars in your pocket.

How would you feel if I told you that you can, by law, lock down these properties for \$1-\$10.00, and then re-market the home for thousands of dollars in **up-front profits?**

At this point, you are more than likely in utter disbelief at this **entirely unique concept**.

You've seen the "Zero Down" infomercials that teach you how to buy a broken down home, fix it up, and sell it for a profit. Maybe you've even bit the bullet and spent however many hundreds (or thousands?) of dollars on these programs.

*All This With NO Credit Check!*

## May I be very straightforward with you about something?

Would you quit your job and spend months fixing up a home that you probably won't even make more than a measly few thousand dollars on?

Would you spend hundreds... even thousands of dollars on a **needlessly long course** that teaches you how get your hands on these "fixer-uppers" for "zero down," when you can make so much more money in less time buying and selling **beautiful homes** literally anywhere you can imagine? What if you could do this all **without having your credit checked -- not even once?**

Now we're talking – am I right?

Look – you and I both know that most of those one or two-thousand-page courses are over-complicated, and that very few people actually make a real living doing that
