### PETER BLAND

## From 2 Bouts of Major Heart Surgery to Becoming the First Australian to Walk to Both the North & South Magnetic Poles and the First Ever Unsupported Crossing of the Antarctic Peninsula.

Peter Bland's lifelong urge to walk the thin line between adventure and catastrophe has led him to the ends of the earth and forced him to test the limits of his own body.

In 1998, 35-year-old Peter Bland fulfilled his lifetime ambition by becoming the first Australian to walk to the North Magnetic Pole, and the only one to have ventured to both the North and South Magnetic Poles.

What makes Peter Bland's accomplishment even more remarkable is that he completed his expedition twelve months after his second bout of major heart surgery. Having raised funds for the National Heart Foundation by achieving his goal, Peter Bland is now their National Ambassador.

But Peter Bland faced his biggest challenge in 2000 when he and childhood friend, Jay Watson, set out on the first ever unsupported crossing of the Antarctic Peninsula. With no dogs, vehicles or doctors, they set out to conquer the stretch of craggy mountains, glaciers and ice-filled bays known as the "Great White Chaos."

On the last day of their journey, an avalanche plunged Peter Bland into a 14-story deep crevasse.

With his pelvis crushed, ribs broken and skull fractured, Jay lay on Peter for three days providing him with enough body heat to survive until rescuers arrived.

Suffering severe brain trauma, Peter required a year of speech therapy, physiotherapy and ongoing medical attention before he could function normally again. Says Peter, "The greatest journey I've ever taken is from that crevasse to being able to speak publicly again. I had to reinvent myself."

Peter Bland has also raised more than \$14 million for Australian charities, produced two television documentaries and released his biography *A Step Too Far*.

Today, Peter Bland runs an adventure travel company specialising in teaching leadership skills to groups in the board room and then taking them to the ice to put their newly learned skills into practice.

A brilliant and inspiring speaker, Peter Bland helps people to identify the goals that engage their heart. Peter believes that once the heart is engaged, success is just a matter of timing.

**BRIAN DUFFELL**

**NEW SPEAKER**

## **Discover how an Ex-Truck Driver discovered the "Secret Weapons of Software Development" while piggy-backing off the Worlds richest man!**

**Chief Technology Officer and CEO of Silicon Blue Software Ltd**

Just 7 short years ago Brian was in a fairly safe, but boring job, working up to 70 hours per week on shift work while truck driving and earning just enough money to pay the mortgage and the bills. Leaving him drained and gutted every week, he knew there must be something better than doing that, but he didn't have any real money to buy a

decent business or franchise.

So what to do? He decided that the most successful business owners had a passion for what they were doing. His passion was for computers and software development. Brian's life changing event starts back in 1997 when Brian spent more than 24 months in part time software learning at the Hamilton University of Information and Technology. Brian graduated from Microsoft Office program development specialising in MS Excel and MS Access, and breaking into Delphi 5 programming language. He quickly found he could use his skills to focus on building better software programs for small businesses and breaking into niche markets on the internet.

In May 2002 Brian formed his own company, and was the founder of Silicon Rainbow Ltd. This was a great achievement for Brian as his start company went from -\$3000.00 deficit to a turnover of \$368,170.82 in just over 10 months from the launch date.

Brian's latest venture is a new major programming discovery about to take the world by storm, and developing into an industry target market worth well over \$700 billion world wide. Very positive customer feed back and initial sales are fuelling this project to it's maximum profit potential.

**NEWSFLASH**

**SPECIAL SECTION:**

**Peter Costello**

**Australian Federal Treasurer**

**Sydney Morning Herald 27th February 2004**

**RETIRING FULL-TIME IS DEAD: Treasurer Peter Costello declares.**

"There's going to be part-time retirement and part-time work... Australia 's baby-boomer generation hasn't saved enough for a comfortable retirement and now may face the fate of retirees now, 7 per cent of whom live on \$300 a week or less."

**AMP Report**

**Brisbane Courier Mail 17th March 2004**

"An AMP report found that 60 per cent of people aged 50-54 who retired last year had less than \$10,000 in superannuation savings."

**John McFarlane**

**Chairman Australian Bankers Association**

"By empowering people with the appropriate financial skills, knowledge and information they are better placed to make informed decisions about their money and avoid being misled on financial matters."

**There are **ONLY 3 major reasons** not to discover the Money Masters 2007 event.**

### 1. No time.

I'm with you here. But you know, all successful people make time to attend this Life Changing Journey. The accomplishment of financial self-sufficiency and success is an on-going journey of financial education. Time is a choice, not a limitation. Who's in charge of YOUR life, anyway?

### 2. No need.

If you are making all the money you want, then either you've set your sights too low or you're lying. The bar can always be lifted. I believe in doing what others think is impossible. Even if you think your current income is fine, if you discovered how to generate and earn more, you would be able to help more people in the world. A secret to success is to financially educate YOURSELF and to empower others less fortunate. You may not need something, but those around you might. Don't YOU think others can benefit from YOUR success?

### 3. No interest.

**If you've read this information to this point, then you're clearly interested in knowing how to improve YOUR income and financial aspirations.** Some people say they aren't interested as a way to cover-up a deeper excuse, often to hide the fact that they don't have the desire and aspiration for a better life. Simply ask yourself the following question. Are YOU working in your current job by necessity, doing whatever it takes in order to survive or are YOU working by choice because you love your boss and job? And I don't care how much debt you're in today – how long you've been living on the same wage – how difficult it is for you to overcome the fears that hold you back financially... how bad your situation may be... how much a prisoner you are of your crippling financial habits... simply take massive action...

**CLICK HERE NOW TO REGISTER IMMEDIATELY!**

## **Now are you prepared to take action?**

**Think about this?** I can't do anything about anyone's past mistakes, but I can surely help you prevent potential future ones. But I'll need you to make a decision. You've got to make the next move.

Be **serious about creating wealth**, **DO IT NOW** - **don't leave this web page and come back later...** **You know you never will.** And anyway, this offer may no longer be available. So, **TAKE ACTION NOW!**

**Confucius said, "A journey of a thousand miles begins with a single step."** It is now your turn to make the decision to take that first step.

Congratulations, here's to your best financial and success year ever!

Yours in Prosperity,

Nik Halik
