step-by-step secrets for creating your internet profits
from home.**

FROM INTERNET MARKETERS: Tom Hua and Brett McFall:

Dear Friend,

On November 15, 16, 17 and 18, 2007 in London, you will witness a proven

seminar model that teaches you the latest and most cutting edge secrets for creating and running a profitable business on the internet.

You will meet the world's best experts - people who are making money ONLINE doing what they teach. You will talk with these experts... ask them questions... and get the answers you need about YOUR situation and goals.

You will take a seat at the only event in the world that travels the world showing everyday people how selling online is really done.

You'll walk away with not only a business in a box (*actual licences to products you can sell right away*) ... but also thousands of pounds worth of bonus gifts ... plus a VIP ticket to 5 other events just like this over the next 12 months absolutely FREE!

Here's how...

By putting your life on hold and spending 4 days focused just on you and your future...

You could be like this mother of 3 who made \$96,717 in just 5 months...

Tracy Repchuk was an Internet marketing beginner when she attended one of these events last September and before the end of the year, she created her first product.

Her commitment to make 2007 her year started on New Year's Day.

Check it out...

- On **January 1** she started a blog (*a totally FREE an very easy way to create a website requiring no technical skills*) where she documented all she learnt from Internet marketing events and trainers.
- On **January 3**, 2 days after starting her blog, a **\$5497 order** appeared in her email box because of what she'd learned from the event. (*Even better, a customer wanted Tracy to train them in what she'd just learned!*)
- By the end of January, Tracy realized her blog posts were really a book, and she really an author. So she combined all her articles into "**31 Days to Marketing Makeover Miracles!**"
- A few days after releasing the book, it became a "best seller" on Amazon.com!
- Less than a year since attending the event, she is now running **6 coaching programs** showing people how to write bestselling books, as well as, niche marketing to actors and entertainers!

All up she made \$96,717 in just under 5 months!

Here is a photo of just **one of the payments she's received since creating her internet business from scratch:**

That's **\$16,389.05!** She earned this money by taking some simple secrets and combining them together to create a new powerful strategy.

And Tracy isn't the only person to have massive results from a little more education. Nor does it only work in California where Tracy's from. In fact,...

You could be like Vince Tan from Malaysia who made \$5000 in 2 weeks!

That's right, Vince Tan took just some of the information that was revealed by the event experts on stage and realized, "I can do that anywhere in the world!"

At the event he learned to secured over **\$25,000 worth of**

FREE products.

But Vince Tan didn't just use those products for himself. He combined the ideas he'd gained into his own super-strategy and ***gave them away*** to build a solid list of subscribers. Currently he's approaching 10,000 people on his list and he's not stopping there.

Even so, this list generated **over \$5,000 inside 2 weeks** of the launch of his new product. His next goal is to become one of our featured speakers.

And it's true, because of the industry leaders we attract, sometimes the person sitting next to you in the audience is as successful as our experts on stage, and if you stay open while attending the event, you'll not only learn from the recognized experts but the underground ones too.

Now if you're really a powerhouse, go-getter, you're thinking 2 weeks is too long to have results from a 4-day seminar. Well, how about massive results in less than 2-days like...

Tim Brocklehurst from the UK who made \$27,000 in 22 hours ... and has since earned

DOUBLE the income he was earning at his high-paying job

Tim took what he learned at one of these events, launched a brand new product and within **22 hours made over \$27,000!**

Just 10 months later he has already earned more than double what his previous high-paying job would have paid him in the same time. The power of FUSION ... **the combining and applying of powerful information** ... works! And it's information that you can't get in an ebook or audio program - only by attending and meeting these experts LIVE in person allows you to take the focused action you need.

*The testimonials and examples used are exceptional results, and are not intended to represent or guarantee that anyone will achieve the same or similar results. Each individual's success depends on his or her background, dedication, desire and motivation.

Now consider the impact of having all the same people combined with the same cutting edge secrets sitting beside you at the next event. Can you imagine what an advantage this would give you? While the rest of the country sits at home, you'll be getting your step-by-step plan in order.

Will you be our next success story?

Introducing the...

Basically...

You can be a successful Internet entrepreneur who lives the "Internet "Dream", generating £££ at the flip of a switch, even while you sleep.

You may take additional comfort in knowing it works in your spare time. You won't **have to give up your day job** to create cash flow on auto-pilot.

Now after a short while, you may end up leaving your job because your part time online business is generating more cash than your full-time occupation. It's happened to many of the speakers you'll meet at the event, and it may happen to you if you learn and apply the supercharged success secrets

Why you may have failed in the past:

Have you ever wondered how absolute beginners go from nothing to making a fortune?

Well this may surprise you, but in an instant you can go from "no idea" to having a "step-by-step plan" that brings in thousands of dollars in just a few days.

But how does this happen?

What we've found is that once people have the **right knowledge**, all they have to do is apply it in order to get results. You may know how to write copy ... or run affiliate programs ... or create products ... or use adsense ... or design websites ... or do joint ventures.

However, until you have a workable plan, you just don't have the system to turn it into a regular profit.

Which is why spending 4 days focused just on YOU and YOUR PLAN is so powerful - you can get INSTANT results once you know the RIGHT information.

And that right information comes from...

... speaking one-on-one with our hand-picked experts who have been there already. People who can help you create the system to take your business to the next level.

The truth is, you can start an internet business right now. And it could be bringing in money within the next 30 days. Money that you make on virtual auto-pilot. The nicest money of all.

But how do you learn what to do?

Spend every night with your head in a book?

Go to night school?

Slave away for 3 or 4 years until you get it right or go bankrupt trying?

No.

And that's the secret...

What is this secret that makes it all so easy?

The secret is called...

"Immersive Learning"

What is it?

Put simply, it's where you focus on you and your future for a full 4 days.

It's where you hit "knowledge critical mass."

This critical mass builds over 4 days because ***you can't do the gardening ...***

walk the dog ... drive your children to athletics – or any of the other stuff that fills your life and prevents you from getting the knowledge that could change your life.

And once you "get it" - you get it forever. Like tying your shoes, you just do it on auto-pilot.

This is how you get real results. Not learning whenever you see fit. Whenever you've got time. Whenever you get an email. Or whenever you get around to it.

No -- you learn it now, for 4 straight days.

And it just makes sense because once you have the world's best experts there to teach you their secrets ... and you can ask them questions in person ... you can ...

**Generate up to \$34,000 in just 72 hours –
from scratch, with NO product and NO website
just like we've proven over and over with absolute
beginners!**

Krissy - \$28,340 in 72 Hours

Steinar - \$34,866 in 72 HOURS

Michael - \$32,346 in 72 HOURS

Carlo - \$19,953 in 72 HOURS

and...

Simon - \$32,130 in 72 HOURS

These absolute beginners were shown LIVE on stage how to build a business from scratch, then we gave them the profits!

Imagine... being able to generate money like this online, at the touch of a button.

Imagine that **you have a system** that allows you to operate your business from virtually anywhere in the world.

Imagine a system that automates your business so you can walk away, go on a vacation or business trip... and money rolls in even while you're gone.

Is it possible? You bet it is.

Just like the absolute beginners above, so are many of our students and fellow experts have built businesses just like it in their own areas, industries, and niches.

And you can do it too - even if you're clueless about computers and technology. We have taught people all across the world to do what we do.

Now it's your turn to experience 4 full days that will explode your mind ... and your bank account.

So if this sounds like just the sort of results you want, you'll get the information you need, by attending the:

You can walk in clueless ... and walk out an "expert"

Imagine knowing exactly the direction you are going to go in. And knowing how you're going to do it.

Even knowing how much money you're going to make. And leaving with the guidance of the world's best experts, so that you know why and how it's going to work.

Wouldn't that be nice?

Imagine... **four days, and you leave ready, with unlimited power for your own online business.**

It is going to happen; it will happen for you on... **November 15, 16, 17, and 18** in London, UK. You'll gather with at least 400 of the countries most switched on people. And your new life will begin.

In fact, there are seven HUGE reasons to be one of the "Switched On" people who attend the World Internet Summit

**1st BIG REASON TO COME:
The only event which travels the world
teaching the latest and greatest
techniques for marketing online**

World Internet Summit was the first event to bring the world's best internet experts TO the masses. Having appeared in 14 different countries this will be the 25th training event (*which means you learn from the world's most experienced team in internet marketing training*).

Not to appear bold (*simply to show you that we are actually IN the business walking our*

talk rather than some "promoter" of an event), but Tom and I are among the most successful internet marketers online today. In fact, here's a brief introduction of who we are...

Tom Hua

A product-creation expert, **Tom Hua** moved from China to Australia with just \$100 to his name. Yet inside just a few short years Tom was able to use the internet to become a self-made multi-millionaire.

Before most of the renowned experts today had even worked out how to make \$1 online, Tom created the **ebook reseller web site model** of which his is still the biggest of its kind today. One of the true pioneers in the internet marketing industry, a search for **Tom Hua's** name on Google, now brings up over 1,000,000 websites.

His amazing global internet businesses generate over **\$1.8 million per year**. And every week via his e-newsletter he shares his unique strategies, proven by his own hands-on experience, for building personal wealth by leveraging the power of the Internet.

Brett McFall

A marketing expert from Australia, **Brett McFall** has written over **10,000 sales messages** in the past 18 years for 153 different industries. He's an expert in making your website sell ... no matter what product or service, and will show you some of his most profitable techniques that you can use right away. Techniques that he's used to make \$30,000 in a single weekend... \$65,000 in 3 weeks ... and over **\$1,000,000 in 3 months**.

Brett went from being Australia's highest paid copywriter (*\$25,000 for a simply written letter*) to the **LOWEST**. **Why?** Because he no longer consults, deciding instead to focus on his internet businesses (*which make money on auto-pilot*) and teaching others LIVE.

Online since 2002, his own personal websites sell everything from e-books to software, and **make over \$500,000 a year** on virtual auto-pilot, while he surfs, travels the world and lives the life of his dreams. Along with Tom, he's the co-creator of the world's biggest internet business event, **World Internet Summit** – taking it from zero to a multi-million dollar company in just 2 short years.

No other internet marketing event in the world has more hands-on experience and leadership...

When you look at it closely and honestly, you'll agree that this alone is a good reason to attend.

Of course there's more. Consider the:

2nd BIG REASON TO COME:
The best experts from around the world

Now what does "best" mean when it comes to experts?

Well quite simply, "best" means those people who are doing it... making money from it ... and can explain how you can do it too.

That means they'll explain the detail ... the nuances ... the things that you can't read about in a book.

We've hand-picked the best internet experts from around the world to fly in and teach you their secrets.

This star line up will be revealed in just a short time from now.

Right now, check out....

3rd BIG REASON TO COME: The only event to witness the "World Internet Challenge" happen in real time...

What if you were shown LIVE how to start an internet project from scratch? Would that help you fully understand how to do it yourself? Nothing's as powerful as being shown by example, true?

LIVE on stage these your hosts will launch an internet business for charity!

This means, you get to see each intimate detail. No smoke and mirrors. Nowhere to hide. Nothing held back.

You'll see the product created ... the website designed ... the follow up emails hooked up ... and more.

You'll even be able to ask questions to ensure you fully understand the knowledge, skills and demonstration that is done before you LIVE.

Plus, the best part of all - you'll see -

- the money coming in LIVE to help others.

And it gets better. Every single cent earned on stage will be given to charity.

In fact, the last 2 times this was done, it raised **over \$100,000 for Feed the Children and over \$55,000 for Unitus.com**

Stephen Pierce raised over \$100,000 during the World Internet Challenge

Think about this...

**"If marketing can allow us to raise \$100,000,
do you think it can help you leave your day job forever?"**

What if by showing you LIVE on stage how to run a profitable campaign on the internet you gained ideas that allowed you to do the same when you got home?

Wouldn't that be great?

What if we could show you how to earn the income you want from home? What if you could do it working the hours you want ... waking up when you want ... and living where you want?

Wouldn't that be better than working at your day job? Or better than working at your business which occupies your time 7 days a week?

That's exactly what this event is all about.

It's about the world's best marketing experts spending 4 days with you and showing you how to set up an internet business ... how to create products ... how to accept money ... and how to get as much traffic as you want

And it's about this too...

**Can you imagine knowing even just a few of these secrets?
The magic is in the power of using these secrets together**

Speaking of 'together' do you know the power of getting together with other marketers who want to joint venture? That's the...

5th BIG REASON TO COME: The only event with a Joint Venture Club

A "joint venture" (or J.V.) is the method that nearly every expert on stage uses to create MEGA wealth. It means that if you have a product, and someone else has a list of customers - you simply join forces to sell your product to their list and split the sales 50/50.

Easy, right? Exactly.

Or if you have a skill in copywriting ... you could joint venture with other marketers to help them sell their products. Or if you're an ideas person, you could joint venture with a website developer or product creation expert.

Make sense?

It means that you work together within each other's strengths to create a much better result than you could on your own. ***This is a key advantage of coming to this event - the deals you make could set you up for the next 12 months.***

That's why we created a special club for this activity alone. You'll meet motivated people eager to do **joint ventures** ... to write your **sales copy** ... to design your **web page** ... to **build your list** of customers - **IN THE MEETING ROOM!**

What is so great about that? Consider this...

FACT: A recent attendee made a \$1,000,000 joint venture deal in this club last year. THAT's how powerful the Joint Venture Club is.

It means you could have a business up and running the very day after leaving the seminar.

- You don't need a product to sell
- Or a website to sell it from
- Or a customer list to sell it to

Doing a joint venture with the right person **BYPASSES** all this!

See, the best marketers in the country will be sitting right beside you. And this event is the place where you and all the other attendees will find out what's **REALLY** working online and what's not. Which makes it the ideal venue to start and joint venture on the brand new ideas you've discovered.

No-other event provides a Joint Venture Club.

And don't just think about doing one joint venture. What if you did 2? 3? Or 5? That's when your business really kicks into over drive. And another little secret here too - ***the experts on stage are always looking for win-win deals too.***

That's why **World Internet Summit** is a great place to meet like-minded people who want to achieve and get ahead.

Who in this room will you joint venture with and make some real money?

You probably guessed one of the reasons to come would be the bonuses, right? Well, study the...

7th BIG REASON TO COME: The only event with world-wide proof of success

Just look at this proof below. When you come to **World Internet Summit**, it can literally change your life:

**This attendee started his first online business while
at the seminar and using just a few of the secrets
he discovered, made \$9,000 before he left!**

That's right, John Logar, simply applied some of the secrets he learned at the event, and made a whopping US\$9,000 before the seminar was even over! In fact, after John made this video, he let us know that **he'd increased his sales and had actually made US\$11,000!** That's with NO previous experience... in fact, not even a product. Wouldn't you love to know how he did it? [Take a seat at this event](#) so that you can discover the unfair advantage too.

These videos speak for themselves. Before your half through with even the first one, you're sure to notice how thrilled people are at the skills they acquired. Isn't it about your turn to feel this way and know this special knowledge?

Wasn't it brilliant!!!! It was absolutely hands down the best, value for

money, jam packed with information, well organized, totally cool fun time I have ever had at a conference. You guys rocked. Thank YOU! I have been working on the changes I need to make today. OOPs sorry, used the "W" word. But it does take effort! Thanks again guys ... for an **excellent life changing event.**

DEAN WORKMAN

I thought this seminar would be "over the top" computer/geeky stuff ... and that it would not be explained in easy step-by-step fashion. Boy was I wrong. **It was so unbelievable it's hard to put into words.** Absolutely anyone can do the steps and make unlimited amounts of money for the rest of their lives. Thank you.

SAMANTHA PETERS

I knew this event would be the BOMB ... and it OVER-DELIVERED. The greatest seminar ever! It would have taken me literally years to learn what I have here in 4 days. All the speakers were great, and **the event was complete CONTENT.** Now I'm on my way to being financially free. Thank you World Internet Summit.

ABEL SMALLMAN

Unbelievable! I feel a level of motivation that I know will never run out. This seminar has opened my mind to the truly massive potential that the internet has to offer. **I also feel that this has been the most enlightening and practical educational experience of my life.** Thank you so much.

NICK WATKINS

I wasn't sure what to expect – I'd heard it could be a huge sales spiel. But **World Internet Summit** simply offered an amazing range of information. Excellent speakers and lots of heart. **Everyone gave ... gave ... and gave again.** Please just keep doing the same – IT WORKS!

SARAH DAWSON SHEPHERD

I thought this seminar would be one where the 'gurus' would not expose too many of their secrets, but ... and it's a BIG but ... I was amazed at how open and willing ALL the speakers were. They shared and taught EVERYTHING. And now I feel empowered ... confident .. and I know I can make it now on the internet.

LEE HON CHEW, SINGAPORE

I knew absolutely NOTHING about making money on the internet and NOTHING about creating websites. Wow... now I feel great because I've

I gained so much knowledge about internet marketing and how to make a HUGE amount of money online. It was great! Thank you

ZHENG LIN, SINGAPORE

I am fired with enthusiasm and so inspired, what a wealth of knowledge and expertise under one roof – wow! I just can't wait to get back home to put it all into practice and start on the path to riches. Thank you all so much.

MARILYN ROBERTS

This has been the best conference I have been to yet and I wouldn't have missed it. The content has been exceptional and even though I have information overload I KNOW I will start making some money very soon.

RUTH O MAWORTHY

"I came here 4 days ago and didn't have a clue about computers never mind internet marketing and I have left feeling like a whizkid- thank you so much."

JOHN LAWSON

"Thanks for giving me tools to take me from a "newbie" to a "webbie"

CHRISTINE WESTWOOD

"The intensity of the message they have to give is amazing. But the way they divide it into bite size makes it easy and doable."

CLIVE TWIST

Wow!!! World Internet Summit exceeded my expectations by leaps and bounds. I'm rushing home to implement all the money-making ideas I've learned. And that's on top of all the connections I've made... the joint venture possibilities ... and million-dollar ideas generated by the new friendships.

DEBRA LINDEGREN, USA

This is the best way to learn! Reading e-books and doing courses are okay, but it doesn't really come to life until you learn in this kind of environment. The networking is unbelievable. I got more ideas and information in 4 days than in a year of reading.

WILLIAM SINCLAIR, USA

I experienced 4 days of intensive concise and extraordinary teaching at World Internet Summit. It was an amazing pivotal experience. You guys are awesome! Thank you Brett and Tom.

ESBON GRIFFIN, USA

As a former Police officer I was sceptical about the content I would receive at this conference. Wow was I pleasantly surprised! I would recommend without hesitation the quality of the content. Kudos for a first class event!

STEVE SANCHEZ, USA

World Internet Summit has been a gateway to the future with implications so vast, they are unimaginable. So much quality knowledge gained from each presentation - the 90 minutes seemed like were over before they'd began. The questions I came with were answered and more. Thank you forever!
