## About Grant Solutions

Grant Solutions is a national consulting company (headquartered in Melbourne) specialising in obtaining government grants for businesses.

We've found that while businesses excel in their day to day activities, they are unaware of available grant opportunities. The businesses that are aware of government grants simply do not have the resources and experience to adequately prepare an application.

Despite spending valuable resources, jumping through hoops and filling out mountains of paperwork, most are unsuccessful in obtaining grants.

Grant Solutions solves this problem by providing valuable advice on submitting grant applications to successfully win government grants.
