

\$2M Stormwater Harvesting and Reuse Grant

Are you worried about the lack of water and harsh Water Restrictions?
Do you plan to undertake a major Stormwater Harvesting project?
Would you like the Government to PAY for it?

Stormwater Harvesting and Reuse Grant

The objective of the grant is to support stormwater harvesting and reuse projects in both large and small cities and towns that contribute to:

- Improving the security of water supplies in Australia, without adding to greenhouse gas emissions
- Reducing the demand on potable water supplies
- Helping to reduce the impact of urban runoff on water quality in receiving waters

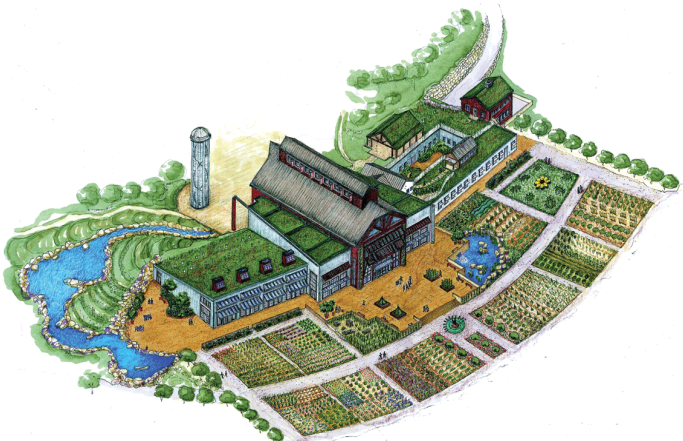

Project funding is available for 50% of eligible capital costs. The minimum project size is \$4 million (eligible for funding of \$2 million).

Projects must be completed by 30 June 2013.

Funded Activities

Common uses of harvested stormwater include: irrigation of parks, ovals and golf courses and other municipal and commercial purposes.

Projects will need to source 100 per cent of their energy needs from renewable sources or fully offset the carbon impact of the project's operations.

Who We Are

Grant Solutions is a boutique consulting firm specialising in obtaining competitive government funding for businesses and community groups.

Why Use Our Services

Government grants are highly competitive, attracting vast number of applications (sometimes 5000+ in each funding round). Despite spending valuable resources, jumping through hoops and filling out mountains of paperwork, most building owners are unsuccessful in obtaining funding.

We change this. By engaging our services, business owners are almost **guaranteed** funding.

We work on a **success** basis and receive a fee equivalent to a percentage of the successful grant. We have previous experience in the water industry and a track record of winning grants for our clients.

New Client Deadline ASAP!
Applications Close Dec 11, 2009

This grant is **ideal** for organisations that will undertake significant stormwater harvesting projects in **2009-2013** and are currently planning for these projects.
